Book online at [Trybooking.com/eventlist/opendays](http://Trybooking.com/eventlist/opendays)

## EARTH CANVAS

Earth Canvas is about reconnecting people with the farming landscape and using the eye of the artist to express what they see. It is about empowering people to be part of the solution to make planet earth a better place.

## JOHN WOLSELEY

John says Earth Canvas has the ability to help understandings about the diversity and complexity of land, environment and food production. In an era of climate change and habitat reduction this matters more than ever.

My feeling about the Earth Canvas project is it will involve all those kind of things for the people of Southern NSW.

My opinion is that the Artists will be collaborating with some very special Regenerative Farmers and this will compound the creative effectiveness of the whole project.

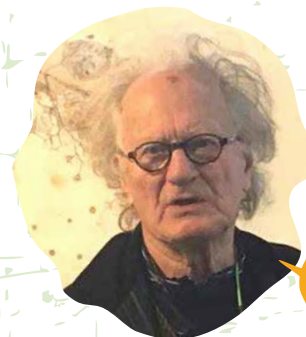

The outcome of Earth Canvas will be an educationally and aesthetically rich art Exhibition and catalogue which will increase understandings about the diversity and complexity of land, environment and food production.

## DAVID HARDWICK

David an Educator will talk about building soil capacity to support ecosystems. Interactive role play of building soil.

## GILLIAN SANBROOK

Gillian, owner of Bibbaringa will talk about planting over 60000 Native trees at Bibbaringa & building soil capacity to increase Soil Carbon & Organic Matter & Soil Hydration.

# THE ARTIST EYE REVEALING EARTH'S ECOSYSTEMS
